## ABOUT

Web developer with experience in the financial, aquaculture, and tourism industries. His ability to connect technical aspects with business objectives allows him to deliver efficient and comprehensive solutions. He stands out for his teamwork and communication skills, complemented by an analytical and meticulous approach.

---

## EXPERIENCE

### Full Stack Developer

SII Group | August 2022 - January 2025

Scotiabank

- Migrated 50% of entire legacy Mortgage Platform from VBA6 to ReactJS with TypeScript under strict 90% test coverage mandate, enforced via SonarQube/Jest.
- Overcame integration challenges by connecting 100+ service endpoints across Sybase and SQL Server in two weeks, while enforcing 90%+ unit test coverage standards.
- Developed MS/BFF connections using Java Spring Boot, integrating Sybase and SQL Server.
- Managed build and deployment processes in CI/CD development environments.
- Optimized mortgage tracking processes by 40% through stakeholder-driven platform enhancements.
- Learned TypeScript from scratch and decoded undocumented VBA6 systems through stakeholder interviews, ensuring business-critical features were retained in the new platform

### Front End Developer

AFP UNO | May 2022 - July 2022

- Developed user-facing platforms (public/private) using ReactJS, focusing on responsive design and cross-browser compatibility.
- Implemented Google Tag Manager from scratch in 2 weeks, enabling data-driven marketing campaigns in collaboration with external agencies.
- Contributed to Agile Scrum workflows, working closely with QA to resolve frontend issues and maintain code quality.

### Full Stack Developer

MoveApps | May 2021 - April 2022

- Developed a multi-client web platform for customer training, including administrative management, user access, informative views, maintenance modules, forms, logins, landing pages, and reusable components.
- Built APIs using SailsJS ORM with bulk email functionality.
- Developed a platform for critical patient transport, optimizing transfer management through direct client collaboration.
